School District of Philadelphia
Asbestos Hazard Emergency Response Act (AHERA)
Compliance Audit

Principal Interview Form

The School District of Philadelphia (School District) and the U.S. Environmental Protection Agency, Region III (EPA) entered into a Self-Audit/Self Disclosure Agreement. The purpose of the agreement is to gauge the School District's compliance with the Asbestos Hazard Emergency Response Act (AHERA) requirements for your school/ facility.

The School District obtained the services of URS Corporation (URS) to conduct the AHERA environmental compliance audit. The audit will focus on the compliance of general information, inspections and reinspections, response actions, operations and maintenance, periodic surveillance, and notifications. This document acknowledges that all environmental documents relevant to the building asbestos management plan have been made available to URS at the time of the audit.

Re: Self Disclosure Agreement - AHERA
Bregy Elementary School ULCS #2240

Dear Ms. Townsend-McIntyre

As part of the School District of Philadelphia agreement, effective March 9, 2007 and amended January 18, 2008 with the United States Environmental Protection Agency (EPA), this letter is intended to transmit and certify the Disclosure Report for the Bregy Elementary School.

This Disclosure Report was written in accordance with the above noted agreement and the "Incentives for Self-Policing: Discovery, Disclosure, Correction and Prevention of Violations," 65 Federal Register 19618 (4/11/00) (the Policy).

As this is our initial submittal under the AHERA portion of the agreement, we request that the EPA review this document and provide comments within the next 7 days so that we can correct any gaps or deficiencies prior to the submittal of subsequent reports to the EPA.

As the Responsible Official, I hereby certify that the attached disclosure report entitled *Disclosure Report- Bregy Elementary ULCS #2240* submitted to EPA is true, accurate and complete in the form set forth in 40 C.F.R. § 270.11(d).

If you have any questions or comments please feel free to contact me or Ms. Elizabeth Gutman, Esq.

SELF AUDIT DISCLOSURE REPORT

Facility Name: Bregy Elementary School #2240
Facility Address: 1700 Bigler Street
Philadelphia, PA 19145

Audit Date: March 3, 2008

Audit Personnel: Alisa Otteni, CPEA, URS Corporation
Brian Joseph, URS Corporation

URS performed an Asbestos Hazard Emergency Response Act (AHERA) Environmental Compliance Audit (audit) at the Bregy Elementary School in accordance with Section IV of the "Self-Audit/Self Disclosure Agreement" between the United States Environmental Protection Agency, Region III (EPA) and the School District of Philadelphia (School District), effective as of March 9, 2007, amended January 18, 2008. The focus of the audit was to evaluate compliance with the regulatory programs required by the "Self-Audit/Self Disclosure Agreement." The audit was conducted under the environmental regulations set forth in the "Self-Audit/Self Disclosure Agreement." URS reviewed the following programs, in accordance with the scope in Section IV B of the "Self-Audit/Self Disclosure Agreement":

1. Asbestos Hazard Emergency Response Act (AHERA): (40 CFR Part 763), Subpart E. The Asbestos Audit will determine compliance with Toxic Substances Control Act (TSCA), Subchapter II (the Asbestos Hazard Emergency Response Act or AHERA), 15 U.S.C. §§ 2641 to 2646, and the federal regulations implementing AHERA as set forth at 40 C.F.R. Part 763 Subpart E.

The audit was conducted on behalf of the School District by URS Corporation on March 3, 2008. Approximately ten days prior to the audit, the facility was provided with a tentative audit time schedule and a list of documents to gather for review during the audit.

Findings were also reviewed with regards to the following nine requirements needed in order to satisfy the EPA's Self-Disclosure Policy.

Systematic discovery of the violation through an environmental audit or the implementation of a compliance management system.

Voluntary discovery of the violation was not detected as a result of a legally required monitoring, sampling or auditing procedure.

Prompt disclosure in writing to EPA within 21 days of discovery or such shorter time as may be required by law. Discovery occurs when any officer, director, employee or agent of the facility has an objectively reasonable basis for believing that a violation has or may have occurred. However, the 21 day reporting requirement was waived by the EPA in accordance with this agreement policy (see section IV. C. and IV.D.2 of the agreement).

Independent discovery and disclosure before EPA or another regulator would likely have identified the violation through its own investigation or based on information provided by a third-party.

Correction and remediation within 60 calendar days, in most cases, from the date of discovery.

Prevent recurrence of the violation.

Repeat violations are ineligible, that is, the specific (or closely related) violations have occurred at the same facility within the past 3 years or those that have occurred as part of a pattern at multiple facilities owned or operated by the same entity within the past 5 years; if the facility has been newly acquired, the existence of a violation prior to acquisition does not trigger the repeat violations exclusion.

Certain types of violations are ineligible such as those that result in serious actual harm, those that may have presented an imminent and substantial endangerment, and those that violate the specific terms of an administrative or judicial order or consent agreement.

Cooperation by the disclosing entity is required.

The personnel selected for this project are experienced senior and project level staff that have completed many Environmental Compliance Audits in the past. Ms. Alisa Otteni, CPEA, the lead auditor, has managed more than two hundred multi-media environmental compliance audits throughout the United States. She has been a URS project manager for more than sixteen years. Ms. Otteni was assisted by Mr. Brian Joseph. Mr. Joseph has seven years of experience in environmental testing and inspections. Mr. Joseph is an accredited and licensed AHERA Building Inspector, Supervisor and Management Planner.

The audit included the following:

- Opening meeting with the School Principal and Building Engineer;
- Review of documentation pertaining to the scope of the audit;

- Detailed tour of specific site areas, deemed necessary by auditors;
- Closing meeting with the School Principal and Building Engineer.
- The following the School District staff attended the opening meeting on March 3, 2008:
- Ms. Susan Cella, School Secretary
- Mr. Jeremy Rafferty, Building Engineer

The following the School District staff attended the closing meeting on March 3, 2008:

- Ms. Susan Cella, School Secretary
- Mr. Jeremy Rafferty, Building Engineer

The Bregy Elementary School consisting of grades K-8 that has approximately 395 students. The facility was constructed in the 1923.

Review of AHERA documentation was conducted in the Main office and the Building Engineer's office. Personnel representing the various departments were interviewed during the record review.

Regulatory findings are presented below. A corrective action plan and associated exhibits are provided in a separate document titled "Self Audit Disclosure Corrective Action Plan."

1.0 ASBESTOS EMERGENCY RESPONSE ACT (AHERA)

The facility was evaluated for compliance with the following regulations:

Date of Non-Compliance: 1997, 2000 and 2007

Corrective Action: The school must complete the Reinspections every 3 years. This is a historical finding as the school can not complete missing data gaps.

Actions to Prevent Reoccurrence: A written schedule should be established and implemented to ensure the timely completion of the 3 Year Reinspections Implement the schedule and track the 3 Year Reinspection in a compliance calendar.

Filed For Extension: Yes No

Satisfy the Nine (9) Conditions of Eligibility: Yes No (explain)

FINDING NUMBER: 3 (Reinspections)

Regulatory Citation: 40 CFR § 763.85(b)(1)(vii)

Description of Finding: The regulations require that the 3 Year Reinspections records be updated within 30 days of the inspection. The most recent Reinspection Report is dated February 2007 and was available for review at the central file and the school building; however it was recently distributed in February 2008 and was not completed within the required 30 day time frame from the inspection date of February 2007.

Date of Non-Compliance: March 2007

Corrective Action: The 3 Year Reinspection records must be updated within 30 days of the actual inspection. This is a historical finding.

Actions to Prevent Reoccurrence: Implement and track the Reinspection date in a compliance calendar so that the 30 day update can be tracked by both the school and personnel in the central office for the next 3 Year Reinspection in 2009.
